

INTERNSHIP

Growth Creative Intern (Gen AI)

REMOTE

2 MONTHS

₹15,000–20,000 / MONTH

API COST ON US

We're looking for someone obsessed with building creatives that don't just look beautiful, they sell. You'll own everything from AI-generated hero visuals to Meta ad creatives, product videos, competitor research and campaign ideas, on a growing premium travel brand where every creative has one purpose: drive sales. Small, fast-moving team, we experiment aggressively and ship even faster.

What you'll do

- Design premium hero images, ad creatives and campaign visuals
- Generate photorealistic lifestyle and product imagery using AI
- Create scroll-stopping social posts and short-form performance videos
- Assist in planning Meta, Instagram and other ad campaigns
- Research competitors and reverse engineer what makes their creatives work
- Study customer psychology behind buying decisions
- Discover and test new AI tools, design software and marketing platforms
- Build systems that make our creative workflow faster and better

What we're looking for

CREATIVE THINKING

Strong visual taste, sharp on color, typography and composition. Work that grabs attention immediately.

PERFORMANCE MARKETING

Basic grasp of Meta Ads and Instagram campaigns. Knows branding creative from conversion creative.

CUSTOMER PSYCHOLOGY

Understands why people buy and what makes someone stop scrolling. Focused on conversion, not just "pretty."

VIDEO SKILLS

Comfortable editing short-form video: Premiere Pro, CapCut, DaVinci Resolve or After Effects.

AI & CREATIVE TOOLS

Exceptional prompt writing. Comfortable with Midjourney, Nano Banana Pro, FLUX, Krea, GPT, Claude or similar.

RESEARCH

Excellent internet researcher and competitor analyst. Finds inspiration globally, not by copying locally.

We don't expect you to know everything. What matters most: learns ridiculously fast, figures things out independently, stays curious, experiments constantly, and takes ownership instead of waiting for instructions.

Skills can be taught. Curiosity and self-learning can't.

How to apply — Apply through the Careers page at louispolo.in/careers, or write to us at careers@louispolo.in. Expect a reply within 3-4 days, we're moving fast.
